Web Developer, Product Team Lead, Changemakers

Ashoka

Kris Herbst

Director of Community at Ashoka Changemakers.com

“ Monica multi-tasks a wide variety of technically challenging tasks without appearing to break a sweat. She is very personable: a good listener who is consistently available to explain our technology, and consider requests and concerns. She is the rare person who deeply understands technology, is a leader in building a humane and inspiring office culture for our team, and is an engaged social activist. **less** ”

Cynthia Drayton

Senior Change Manager

“ As one of the newer members of the Changemakers' team, Monica is eager to learn as much as possible and has been a sponge for institutional knowledge, fast becoming an important member of the team. Her diligence, hard work, and eagerness to learn are apparent in almost all her contributions to our team. Although she is the tech lead for Packard, her contribution to the team goes far beyond this. She recently went above and beyond in helping secure one of our judges for the initiative. She did so swiftly and professionally. I've come to realize in a very short period of time that I can count on Monica to follow through on tech requests, even if she hasn't yet performed the task. Packard Foundation recently asked for some spreadsheets that required her tech expertise. Monica delivered in a very timely manner, helping to meet client expectations. I also admire Monica's passion for our work, and enjoy her genuine collegiality - she is a pleasure with whom to work. **less** ”
